Just A Word About

# Gloria Marshall

The writer of beautiful Ballads Waltzes and Fox trots

Miss Marshall is the most unique and versatile song writer of today, also a thorough musician. Three years ago this composer attemped the seemingly impossible stunt of putting semi popular songs over without an organization.

Miss Marshall writes both lyrics and music. The Lyrics express beautiful sentiment and the music is remarkable for its lingering melody, simplicity and charm. Rarely do we find a composer with such practical ability and determination to succeed.

Miss Marshall does not recogonize obstacles but merely rides over them having driven her own car more than 100,000 miles interviewing various music dealers. To quote what thousands are saying who know "Here is a girl whose talent and courage deserve the best cooperation from the public and the dealers throughout the country."

Your orders will be appreciated.
Ask your dealer for Records & Rolls.
